

Getting Started with

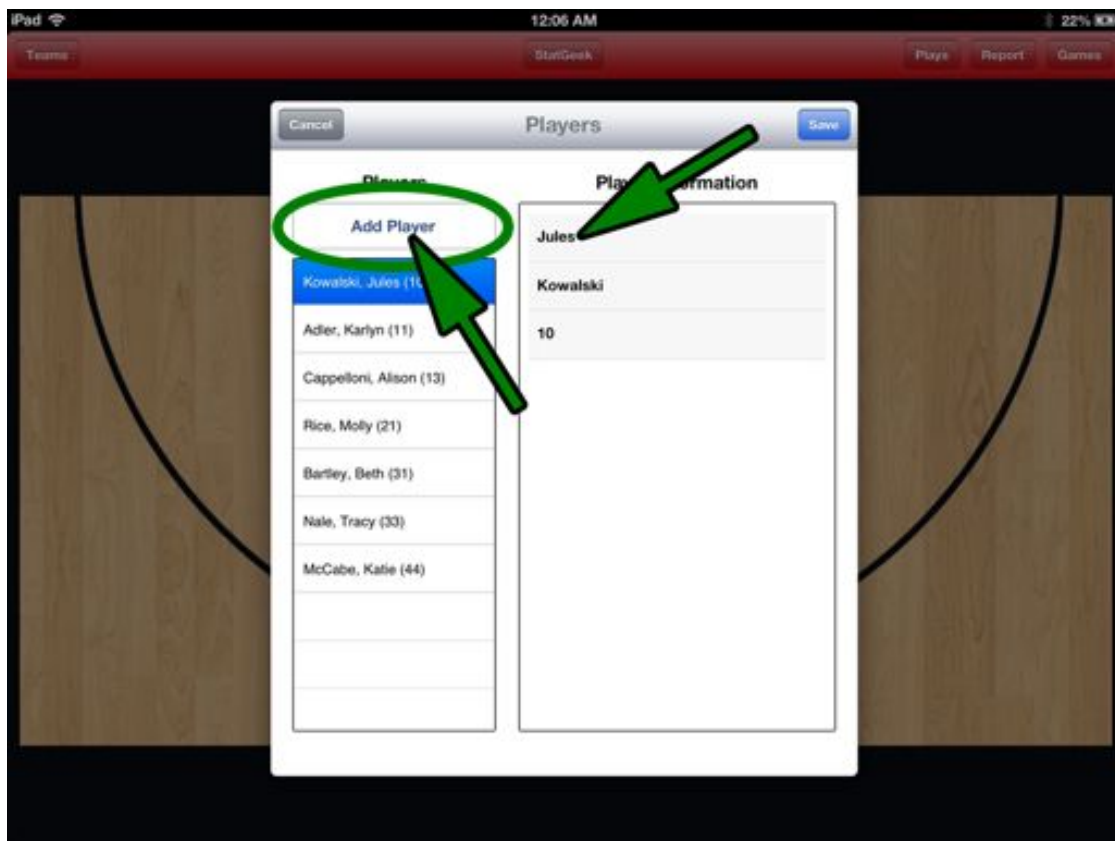

We have worked hard to make this program as easy to use as possible. If you are ever unsure on what to do next, don't worry, Stanley the StatGeek will prompt you.

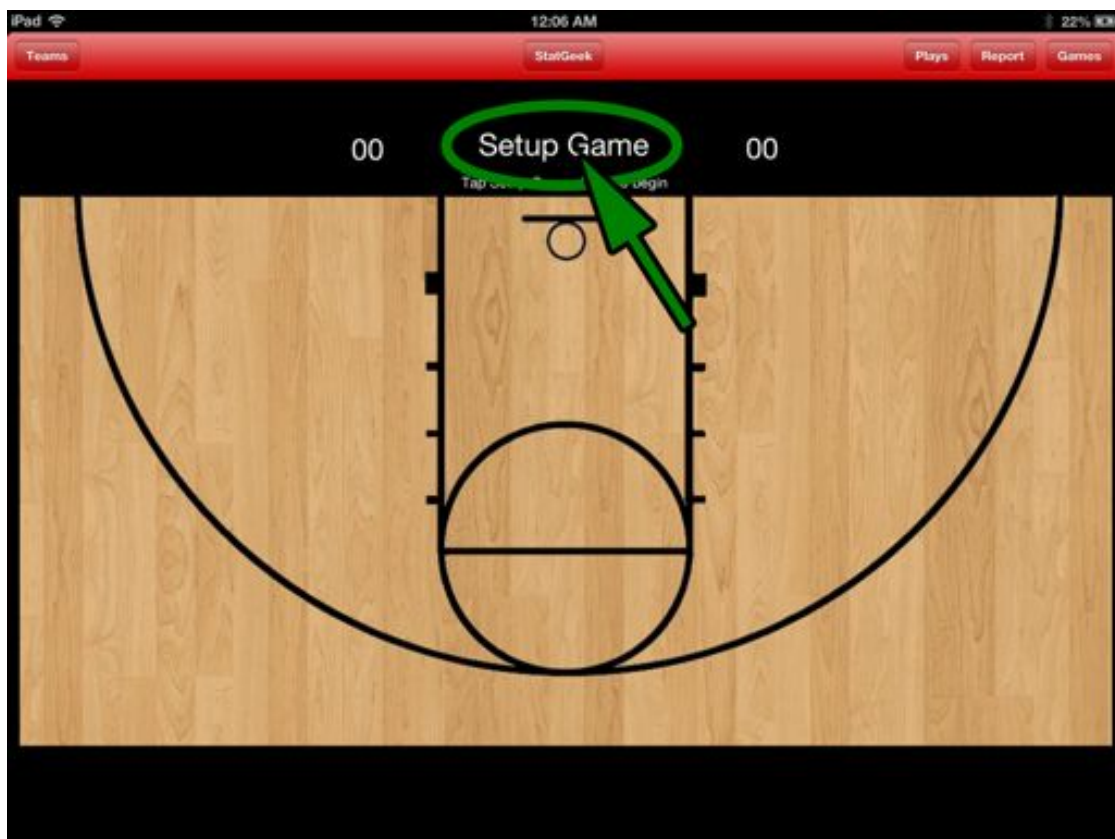

Get started by adding your team to StatGeek

Add your opponents the same way, and then setup your game!

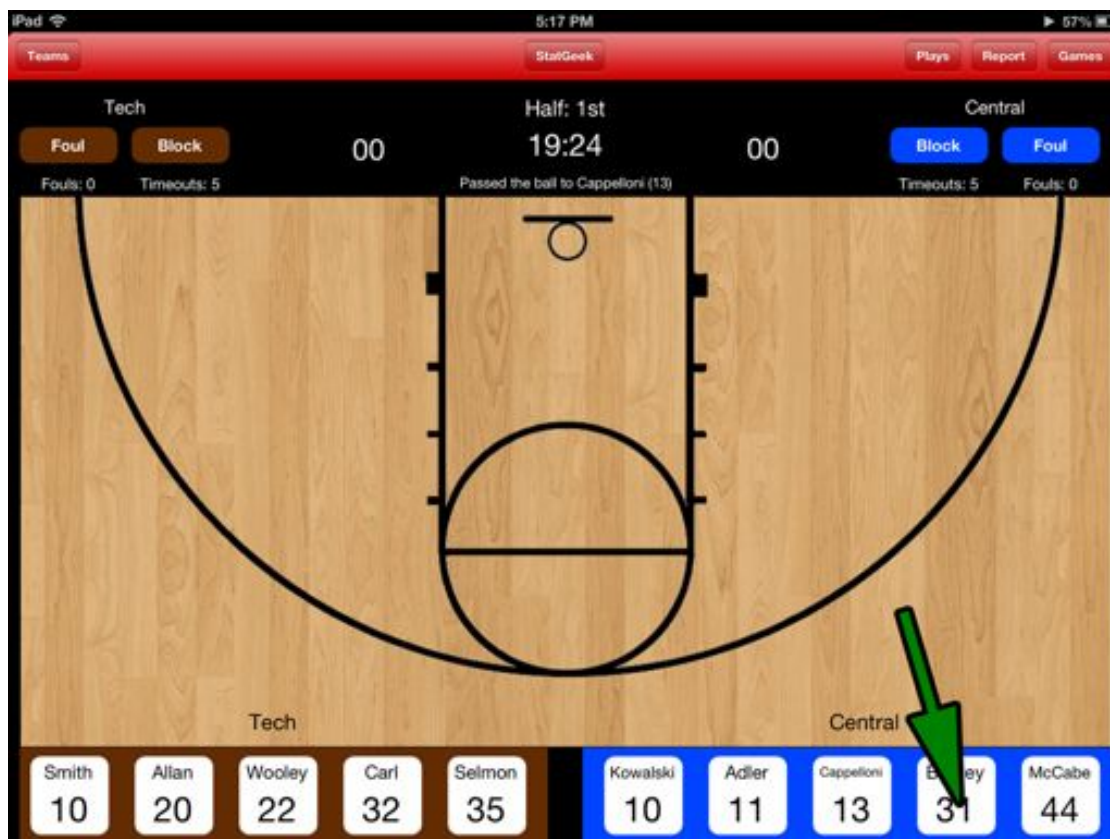

Now pick your starting lineups!

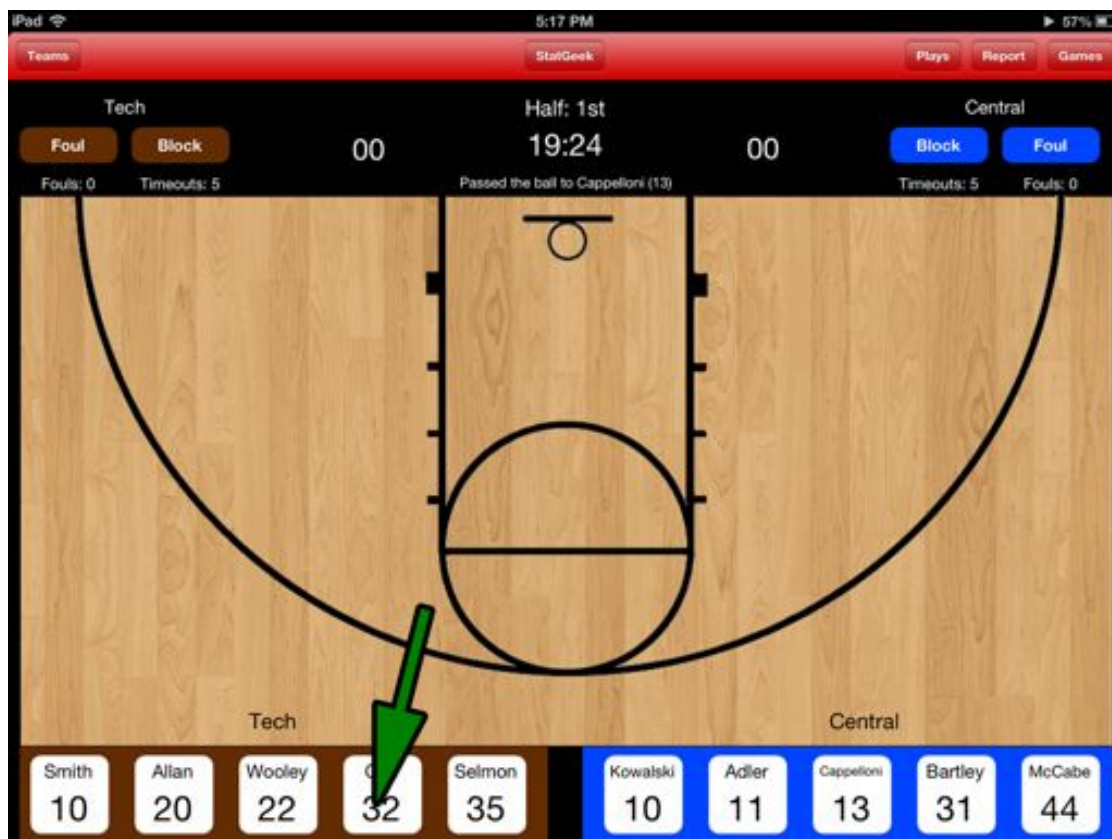

When you are ready to start the game, tap on start game then follow the ball

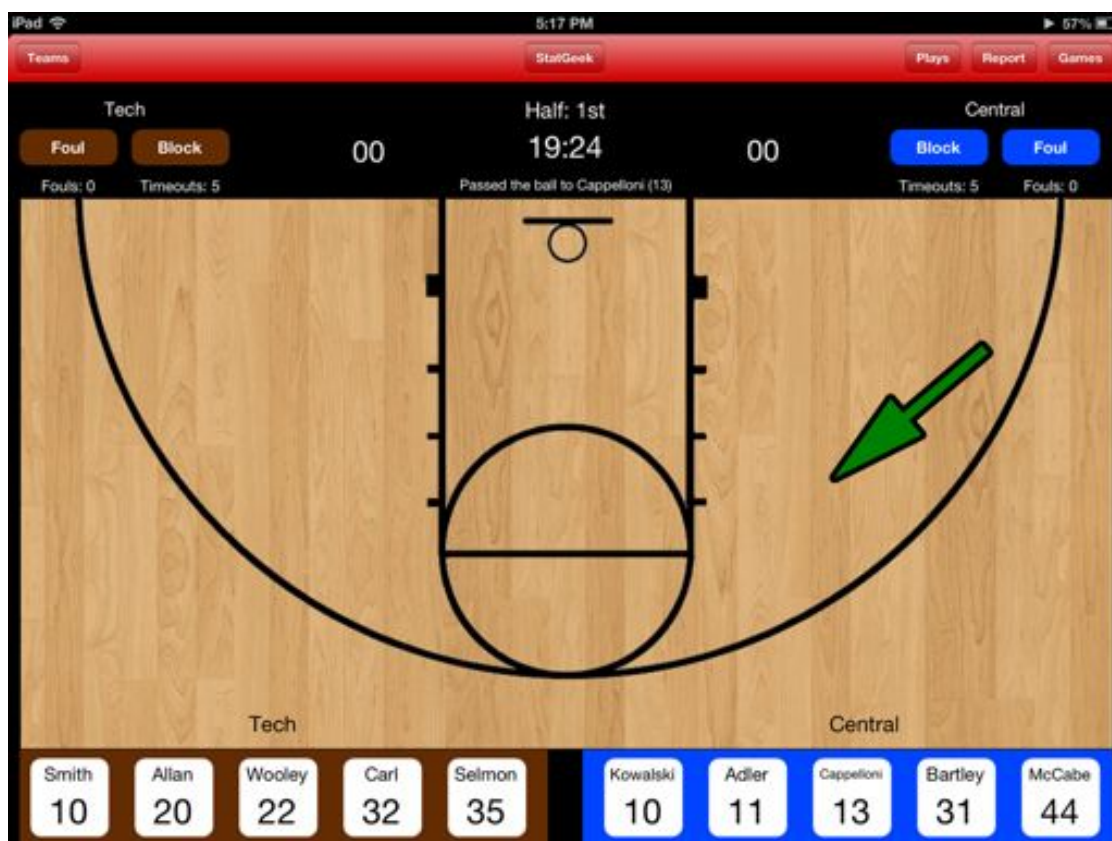

Follow the ball simply by pressing on the player who has possession

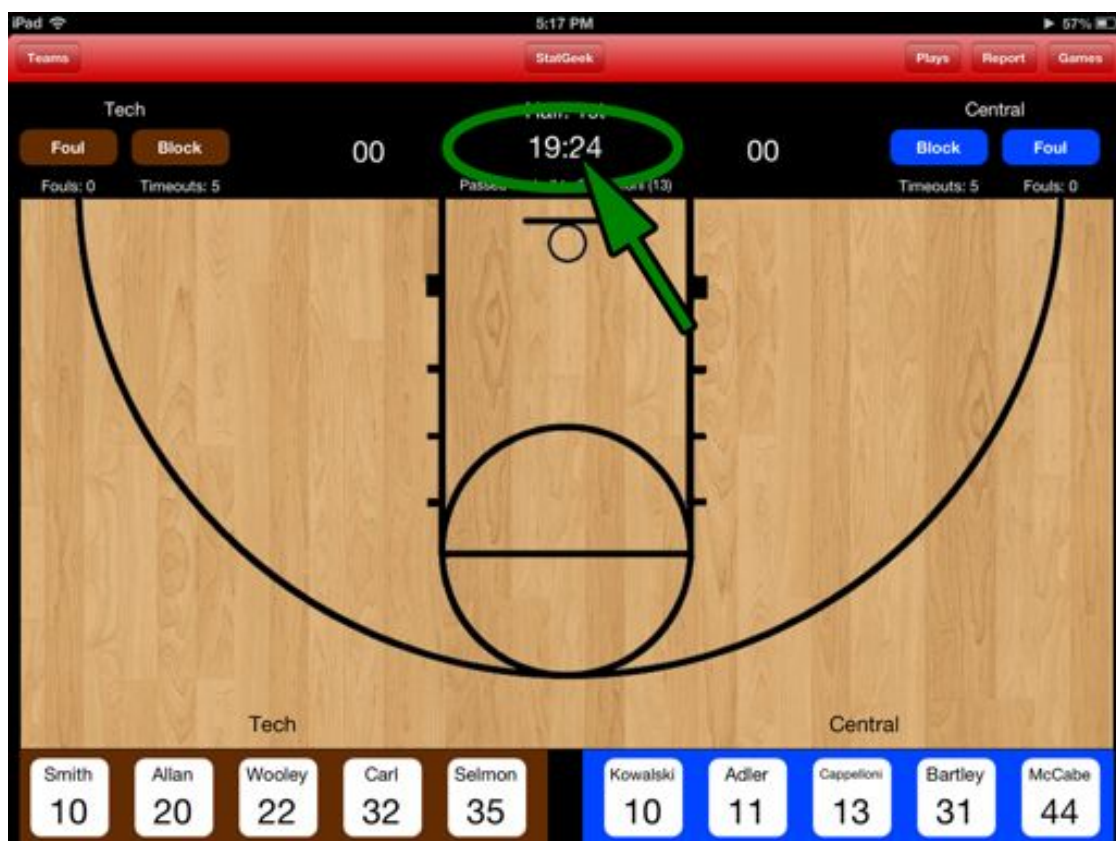

When a shot is attempted, just tap where on the floor the player shot from

When a shot is made, Stanley the StatGeek will remember who made the pass, all you have to do is decide if there should be an assist credited on the play!

Access the Pause Menu anytime by clicking on the clock

You can make substitutions from the Pause menu for both teams at the same time.

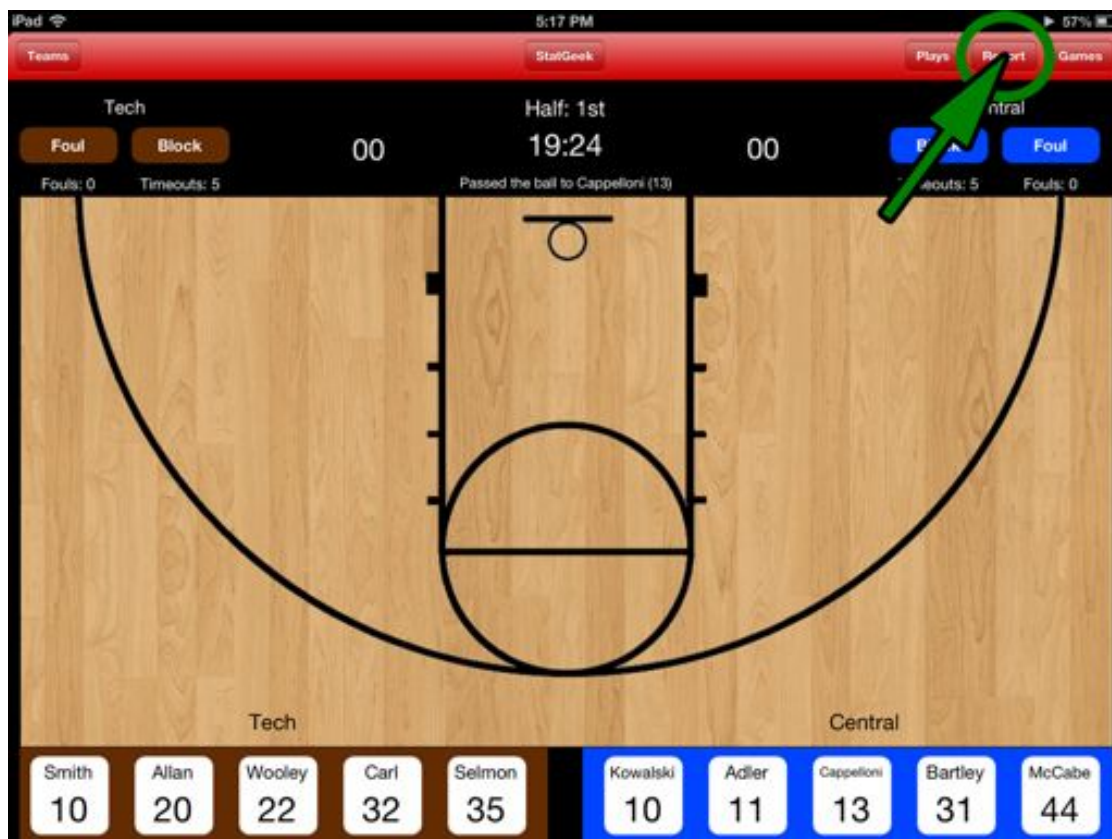

Click Save when you are done and it saves both teams at once.
When you are ready to resume play, just tap on the clock again.

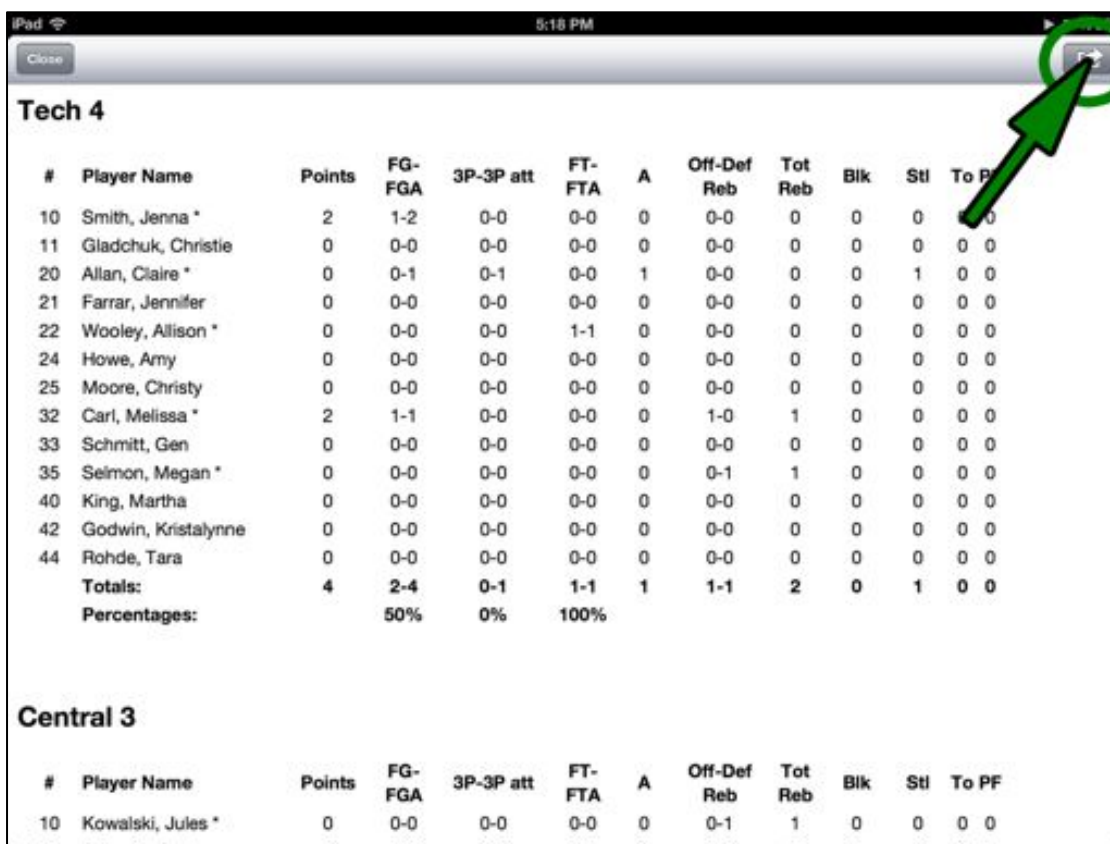

Check out the play-by-play with time and score notated by clicking on Plays.

To see a full box score of the game, tap on Report.

Here is where you can email your full box score out to newspapers, websites, parents, fans and coaches quickly and easily (internet connection required).
